THE WEEKLY DIGEST

Volume 40—Number 5 Section TWO Week of July 31, 1960

INDEX TO VOLUME 39

January Through June 1960

As you know, items in QUOTE, arranged alphabetically according to subject matter, are regularly assigned an index number. In cur semi-annual index, the first numeral in each reference indicates the issue of QUOTE, the second numeral refers to the location of the item within that particular issue, according to its index number. Thus, in the first column of this index, "Action—17-2;" tells you that an item on Action will be found in the seventeenth issue of QUOTE under index number 2.

One or more letters, following an issue number, refers to material in regular departments. For example: "Weather—3-GB;" indicates that an item on Weather appears in *Gem Box* in issue number 3. The reference to "Beauty—25-BB;" means that an item on that subject appears in *Book Briefs* in issue 25. The reference to "Absentmindedness—13-g;" means that an item on that subject will be found in the regular *Good Stories* section of issue 13 under index letter g.

Quotations in the section *May We* QUOTE *You On That?* are also numbered consecutively. In the index, a reference such as "Agriculture—21-6Q;" refers to a quotation on that subject in the 21st issue, numbered six in the *May We* QUOTE . . . section. When the letter t follows the Q, as in the reference "China—19-1Q-t;" it indicates the special *Quote-ette* feature in issue 19. A complete list of department abbreviations appears below:
